## Database Design Documentation

### 1. Users Table

Fields: user\_id (PK), full\_name, email, password, phone, role, created\_at, last\_login, is\_verified

### 2. Patient Profile

Fields: patient\_id (PK, FK), age, gender, chronic\_diseases, medications, allergies

### 3. Doctor Profile

Fields: doctor\_id (PK, FK), specialization, license\_number, certificate\_url, working\_hours, is\_available

### 4. Medical Consultations

Fields: consultation\_id (PK), patient\_id (FK), doctor\_id (FK), urgency, status, appointment\_time, notes, recommendations, consultation\_type

### 5. Consultation Queue

Fields: queue\_id (PK), doctor\_id (FK), patient\_id (FK), estimated\_wait\_time

### 6. Clinics/Charity Centers

Fields: center\_id (PK), name, type, latitude, longitude, working\_hours, specialties

### 7. Pharmacy

Fields: pharmacy\_id (PK, FK), name, latitude, longitude, is\_on\_call, phone

## 8. Emergency Medicine Delivery

Fields: delivery\_id (PK), user\_id (FK), pharmacy\_id (FK), medicine\_name, status, delivery\_address, payment\_method, price

## 9. Delivery Drivers

Fields: driver\_id (PK), name, phone, vehicle\_number, latitude, longitude

## 10. Medicine Donations

Fields: donation\_id (PK), donor\_id (FK), medicine\_name, dose, expiry\_date, storage\_condition, image\_url, status, pharmacy\_reviewer (FK)

## 11. Medicine Requests

Fields: request\_id (PK), donation\_id (FK), patient\_id (FK), status

## 12. Notifications

Fields: notification\_id (PK), user\_id (FK), title, message, type, created\_at, is\_read

## 13. Wallet & Payments

Wallet Fields: wallet\_id (PK), user\_id (FK), balance

Transactions Fields: transaction\_id (PK), wallet\_id (FK), amount, type, date
